

We are proud business owners and supporters of Washington state's vibrant motion picture industry.

We know firsthand how motion picture productions transform communities. Having a production in your town means meals at restaurants, hotel rooms filled, groceries from the local store, vehicles and supplies rented and wardrobe and set decorations purchased from local, main street shops. Every sector of the community feels the boost from a film production.

The State established the Motion Picture Competitive Program in 2007. Since then, the program has brought an estimated \$109M in direct spending and created approximately 14,500 family wage jobs for Washingtonians in communities across the state.

We are local businesses that directly benefit from the jobs and boost to local economies the motion picture competitor program creates. We urge you to join us in supporting the film industry, jobs and economic vitality provided to communities, businesses and families across Washington State.

**Please support legislation to expand funding for the Motion Picture Competitiveness Program.**
